

HOW TO CREATE A BITMOJI

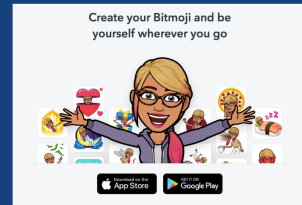

Making a virtual mini avatar of YOU!

ON YOUR PHONE

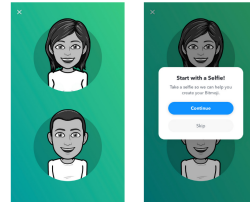

1 DOWNLOAD THE APP

Head to the App Store or Google Play Store to download the Bitmoji application and get started. Remember your username and log in, we will need it later!

2 SELECT A GENDER TO USE AS YOUR BASE IMAGE

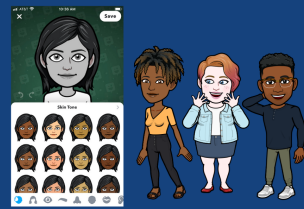

Select an image to begin your Bitmoji editing. Next, you will be prompted with a shortcut. You are welcome to take a selfie and let the computer use it to create a virtual image of you. You also can select skip and create your avatar step by step.

3 GET TO WORK

Bitmoji has 19 pages of modifications, so now you will be able to create an avatar to look just like you.

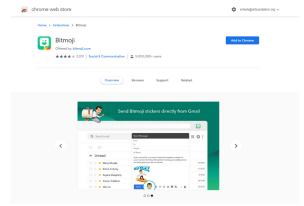

When you find something you like, save it!

ON YOUR COMPUTER

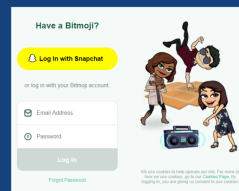

4 DOWNLOAD THE BITMOJI GOOGLE EXTENSION

Head to tinyurl.com/BitmojiPlugIn and download the Bitmoji browser extension. This will allow you to easily access your Bitmoji from your computer. Click Add extension to install.

5 LOG IN

After downloading the extension, you will be prompted to log into your account using the log in and password you created in step 1.

4 PIN YOUR EXTENSION

You will then want to click the small grey puzzle piece in the top right corner of your browser. This will allow you to pin the bitmoji extension to your browser toolbar.

6 EXPLORE

Click on your new extension and begin to explore!

Searching a key term such as "Pose" can be a great way to find the perfect bitmoji for your classroom, email, cartoon, or poster.

When you find one you like, you can either copy and past (Control + C) or (depending on your program) drag and drop!
